HATIM LAAJINI

FULL STACK DEVELOPER

Full Stack Developer with a passion for building beautiful, intuitive, and functional websites and applications.

I am able to create dynamic, full-featured web applications that provide a seamless user experience.

JOB EXPERIENCE_

2019 - Present

Web Developer

Goadway.com

I enquired and managed a portfolio of customers, boosting my network by reaching out to more customers and maintaining a productive relationship for both sides. In addition, I designed UX/UI on Figma/Illustrator to match the brand identity of the company. I also managed a team of three, including graphic designers and digital marketing specialists.

2017 - 2019

Project Manager

Monocloth.com & Monorop.com

I was able to secure strong relationships with key wholesale customers and buyers, and worked on the vision of the company to deliver a forecast of its potential. I also pitched and assisted in the creation of a company branch in NYS, USA. In my role, I developed and initiated projects, managed costs, and monitored the performance of my team.

2016 - 2019

Language Consultant

New York Studio Language School

I have proofread, edited, and improved documents of various sizes, and have also interpreted and translated conversations simultaneously to facilitate business, medical, and personal interactions between parties. I have provided business-oriented lessons to clients such as Siemens, Cinema Mars, and HSBC in areas such as marketing, HR, and production.
